

Academic Achievers™ KinderPrep Helps Your Child Get Ready For Kindergarten! (Sponsored Post)

Description

Sometimes, it seems like kindergarten is the new 2nd grade. Depending on where your child will be attending school, the kindergarten of 2013 at many L.A. private schools is a lot more accelerated than in years past. So, if you're looking for a summer program that incorporates fun-based learning to ensure your child will be prepared for kindergarten, check out [Academic Achievers™ KinderPrep Program!](#)

I truly enjoy working with [Janis Adams](#), the lovely and talented CEO/founder of Academic Achievers. Janis has been a sponsor of past *Beyond The Brochure* speaking events at Kidville in Brentwood, she's written very informative [guest posts](#) for our blog and she's the proud mom of 3 kids who have graduated from Village School, Harvard-Westlake, Loyola and Harvard University. Janis knows what's required at L.A. private elementary schools and she's created KinderPrep to meet the needs of students who will be entering kindergarten!

LAST CALL JUNE 7TH!

Summer KinderPrep!

If your child is between 3.5 and 5.5, Academic Achievers' Summer KinderPrep program is a must!

Play-based and academically oriented, their popular enrichment program is one-on-one or small group, in-home, and customized to your child's abilities and needs. Summer KinderPrep is 6 weeks, 2x a week, 1.5 hr. sessions of learning and FUN. Your child will be on top of everything they need to know and more. Most importantly, they will learn to love learning!

The KinderPrep counselors are Master's level child development educators and credentialed kindergarten teachers. Your child will be taught phonics, reading comprehension, beginning math, little wizard science experiments, geography, and much more as they provide fun and learning in your very own backyard.

This program is customized to your child's needs and abilities to assure they enjoy their summer and start school in August fully prepared, confident, and excited to learn.

They begin with a skills assessment of your child and then build an individual enrichment program exclusively for your young learner. Parents will receive feedback for every session.
