

Wordless Weekend

Description

L to R: Gloria Mitchell and Dale Cochran (Cedars Sinai Brain Trust), Dr. Keith Black, chairman and professor, Dept. of Neurosurgery, Cedars Sinai, Marylou Ferry, Avis Ridley-Thomas, Christina Simor and Barry Perlstein. It was my close friend Marylou's birthday. Barry and I were honored to welcome Dr. Black and guests to our home to recognize his amazing work. He operated on Marylou 13 years ago, removing a large brain tumor, saving her life. What an incredible event!

Willows 5th grade studied the American Revolution, went to Boston for 5 days and created a project that had revolutionary leaders Tweeting!

If they could have Tweeted during the American Revolution...

It was "clone" day at The Willows for the kids, but me and my friend D. showed up wearing chambray, totally unplanned!

At The Willows culmination. Third grade studied L.A.. My son shows us his project.

Blogging takes work! So serious:)
